- Doodlebug Flocking lily white
- Other: assorted buttons for lid.

Tools Used:

- Mod Podge
- Brayer
- Sanding Block
- Scrappy Glue
- Glue pen (ballpoint)

Designer Tips:

- A little bit of Modge Podge goes a long way. If you use too much your paper could “bubble up” and not be nice and flat.
- Use Modge Podge on top of your patterned paper on your lid (top and sides) as a sealant. Hopefully, it will be well loved and well used.
- If you are using Modge Podge on your lid to adhere the buttons work in a small area. You don’t want it to dry before you have a chance to lay down your embellishment!
- Decide if you are going to use a knob or handle. Once you apply your buttons it will be difficult to change your mind and add a knob. If you are going to cover the lid with buttons or eyes remember to leave enough room for the knob base.
